

ZAMAN CHOUDHARI

Aspiring Software & IT Professional

☎ +91 8879586274 | ✉ choudharizaman@gmail.com | 💻 [zamanchoudhari](#) | 📍 Mumbai, India

CAREER OBJECTIVE

Enthusiastic Diploma in Information Technology student with a solid foundation in IT fundamentals and a keen interest in software quality assurance and development. Seeking an internship opportunity to apply and expand technical knowledge in a practical environment.

EXPERIENCE

Nexoresha Technologies

June 2026 - August 2026

Full Stack Developer Intern

- Worked on the development of multiple web applications and websites, contributing to both frontend and backend development.
- Designed and developed responsive user interfaces using modern frontend technologies and integrated them with backend services.
- Built and managed RESTful APIs, handled API integration, authentication, and backend functionality.
- Worked with databases including database design, management, CRUD operations, and data handling.
- Implemented debugging, testing, and optimization to improve application performance and user experience.
- Utilized AI-powered development tools to enhance productivity, assist in code generation, debugging, problem-solving, and accelerate application development.
- Gained hands-on experience in full-stack development workflows, including planning, development, deployment, and maintenance of software applications.

PROJECT

AI Stock Analyzer

Technologies: JavaScript, React.js, Node.js, Express.js, SQLite, Socket.IO, REST APIs, AI Integration

- Developed a full-stack AI-powered stock market analysis platform with secure user authentication.
- Built an interactive analytics dashboard to visualize stock trends and market insights.
- Integrated an AI chatbot to provide stock-related assistance and answer user queries.
- Implemented a risk analysis module to help users evaluate investment risks.

E-Commerce Backend API

Technologies: Node.js, Express.js, MongoDB, Mongoose, JWT, bcryptjs, Postman

- Developed a secure RESTful backend for an e-commerce application following the MVC architecture.
- Built complete CRUD APIs for product management.
- Developed shopping cart and order management modules with database integration.
- Designed and tested REST APIs using Postman and implemented middleware for authentication and request handling.

Resume Builder Portfolio

Technologies: React.js, JavaScript, HTML5, CSS3

- Developed a responsive portfolio website with an integrated resume builder.
- Designed a modern and user-friendly interface with reusable React components.
- Implemented dynamic resume generation and customization features.
- Optimized the application for responsiveness and cross-browser compatibility.

EDUCATION

Diploma in Information Technology

2024 - Present

Vidyalankar Polytechnic | MSBTE | India

SSC

2023 - 2024

81% | Holy Cross High School | Maharashtra State Board | India

TECHNICAL KNOWLEDGE

- Basics of Programming: Exposure to C, JavaScript, Python, SQL
- Frontend Technologies: HTML, CSS, React.js, Responsive Web Design
- Development Tools: Git, GitHub, Postman, VS Code
- Operating Systems: Familiar with Windows OS, introductory Linux commands.
- Database Concepts: Studied fundamentals of tables, keys, and simple SQL SELECT queries.
- Software Development Concepts: SDLC phases, basic testing principles.

KEY STRENGTHS

- Quick learner; consistently adapts to new subjects and technologies introduced in coursework.
- Strong analytical thinking.
- Effective team player during lab sessions and academic activities.

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.
